Re: BLM No. UTU-072861 Gold Mine

Gentlemen:

We have reviewed a copy of your Notice or Plan of Operations. We received a copy of the notice from the Bureau of Land Management on April 6, 1995.

This project is for running a 3-inch dredge in the creek located in Millard County.

A permit from this office is not required, provided that you do not use any larger than a 3-inch dredge in the stream bed or the suction pump is rated less than 15 HP. However, you must advise us for review of any water quality impacts, if your activities generate any waste water which would be discharged to the ground or surface waters of the state.

You must contact the U.S. Fish and Wildlife Service regarding complying with the Endangered Species Act and the Utah Division of Water Rights and the US Army Corps of Engineers for compliance with stream bed alteration requirements.

Mr. William R. Foster
April 13, 1995

If we can be of further assistance, please contact me or Mr. Lyle Stott of my staff.

Sincerely,

Kiran L. Bhayani, P.E., D.EE., Manager
Design Evaluation Section
